Improvement Scheme

A5 Old Stratford roundabout improvement

From: 11 December 2017 **To:** 31 July 2018

Work: PLANNED

Works to improve the roundabout on the A5 at Old Stratford, where the A5, A422, A508 and Old Stratford Road meet.

This will also include work to:

- resurface the roundabout
- improve the lighting
- improve the existing safety barrier and drainage system

This scheme will reduce congestion and delays at the junction by increasing capacity and reducing the peak-hour queues.

Most of this work will be carried out overnight, Monday to Friday. Some full weekend closures of the roundabout and approaches will be required to complete some of the work. These will not take place until the New Year.

We'll also need to put a 24/7 40mph speed restriction in place for the duration of the work.
