

The Structural Engineer

came to inspect the building work at Cosgrove Church and found that some of the main beams on the 14th Century roof have rotted away (they've not done badly for 800 years!)

As a result **we cannot use the Church again** until the timbers have been replaced.

We will be holding **all our services** in the Village Hall instead, starting with 11 am on Sunday 17th December.

Please do still come to our Christmas services:

17th December 4pm Welcome Christmas

22nd December 7pm at Carols (at Furtho Church)

**24th December 3pm Crib Service
especially for children**

**Christmas Day 11am Holy Communion
With The Rev. Diane Whittaker**
